

First performer	Topic	First performer	Topic
Dr. Asqari	Identification and Characterization of <i>Toxoplasma gondii</i> in <i>Rattus</i> captured in Shiraz in 2016 using MAT, PCR and BIOASSAY methods	Dr. Zomorodian	Study the chemical composition and antimicrobial activities of three <i>Satureja</i> species against foodborne and oral pathogens by microdilution method.
Dr. Sadjjadi	Seroepidemiological Study of Human Hydatidosis in Foreign Resident Guesthouse Area, Semnan city, Semnan province in 2017 - 2018	Dr. Zomorodian	Molecular identification and susceptibility testing of <i>Candida</i> species isolated from diabetic patients (type II).
Dr. Sarvari	Investigation of the frequency of HBV and HPV infection in semen of infertile men and the effects of	Dr. Zomorodian	Study the prevalence of caspofungin resistance in the clinical isolates of <i>Candida</i> species by broth microdilution and disk diffusion methods and determination of the probable mutations leads to resistance.
Dr. Motazedian	Survey on ability cyst formation of <i>Toxoplasma gondii</i> RH strain in chicken	Dr. Shahriari	Histopathological changes in liver, spleen and lymph nodes of dogs naturally infected with <i>Leishmania infantum</i>
Dr. Shahriari	Evaluation of ELISA using whole protoscolex for diagnosis of human hydatidosis	Dr. Zomorodian	Determination of synergistic effect of <i>Myrtus communis</i> essential oil and linalool with itraconazole against azole-resistant <i>Candida</i> spp.
Dr. Pakshir	Evaluation of DNase and hemolysin activity among environmental <i>Cryptococcus</i> species isolates	Dr. Shahriari	Molecular and serological evaluation of <i>Toxoplasma gondii</i> contamination in Reared Turkey in Shiraz in 1389
Dr. Sarvari	Investigation of HBV markers in students and healthcare workers of Shiraz University of Medical Sciences	Dr. Sadjjadi	Evaluation of recombinant antigens of <i>Echinococcus granulosus</i> in comparison with native antigens (Antigen B and adult worm antigens) for diagnosis of hydatid cyst
Dr. Hatam	The study on polymorphism of Afghanistan endemic plasmodium spp isolated from various species of anopheles and comparison with reported species in iran	Dr. Zomorodian	Study the chemical composition and antifungal activities of <i>Satureja hortensis</i>
Dr. Hatam	Double blind randomized clinical trial of safety and efficacy of radiowave-induced heat therapy plus topical liposomal Amphotericin B in comparison with heat therapy for the treatment of cutaneous leishmaniasis caused by <i>Leishmania major</i> (Phase 3)	Dr. Zomorodian	Study the chemical composition and antimicrobial activities of <i>Nepeta cataria</i> L essential oil during different stages of the growth
Dr. Hatam	Evaluation of the relationship between MBL genomic variations and serum levels with rural cutaneous leishmaniasis in patients referred to Valfajr health center in 1395	Dr. Zomorodian	Study the antibacterial and antifungal activities of two different chemotypes of <i>Carum copticum</i>
Dr. MotamediFar	Investigation of antibiotic susceptibility and presence of virulence factors in <i>Escherichia coli</i> isolated from urinary tract infection in pregnant women referring in Hafez Hospital in Shiraz	Dr. Zomorodian	Study the antimicrobial activities of twenty one novel synthetic molecules (Imidazole and Tolnaftate derivatives) in comparison to common antibiotics by broth microdilution method.
Dr. Shahriari	Quantitative evaluation of the genomic DNA of <i>Toxoplasma gondii</i> in seropositive pregnant women by real time PCR	Dr. Shahriari	Evaluation of Immunohistochemical method in diagnosis of congenital toxoplasmosis using paraffin embedded samples of aborted placentas
Dr. Mikaeili	The antileishmanial effects of <i>Capparis spinosa</i> and <i>Rosa damascena</i> hydroalcoholic extracts on <i>Leishmania major</i> using MTT assay	Dr. Shahriari	<i>Toxoplasma</i> Infection in Farm Animals: A Seroepidemiological Survey in Fars province
Dr. Shahriari	Morphometrical and molecular study of infected snails with <i>Fasciola</i> in Boyer Ahmad Township in 2015	Dr. Shahriari	The effect of <i>Echinacea purpurea</i> extract and glucantime on treatment of cutaneous leishmaniasis in Balb/c mice
Dr. MotamediFar	The study of genetic profiling of antibiotic resistance <i>Klebsiella pneumoniae</i> isolated from hospitalized patient by PFGE (pulsed field gel electrophoresis) in Shiraz-Iran 2015	Dr. Zomorodian	Effects of interferon treatments on the expression of antimicrobial peptides (Defensins and Cathelicidins) in Murine macrophages following infection with <i>C. albicans</i>
Dr. Pakshir	evaluation of phospholipids and hemolytic activity of <i>Candida</i> Species isolated from onychomycosis and oral lichen planus	Dr. Zomorodian	Study the chemical composition and antibacterial and antifungal activities of <i>Ocimum sanctum</i> essential oil during different growth stages.
Dr. Hatam	Evaluation of sensitivity and specificity of ELISA, using FML antigen, in comparison with IFA and leishmania infantum crude antigen-ELISA, for diagnosis of visceral leishmaniasis	Dr. Shahriari	Seroprevalence of toxoplasmosis in voluntary blood donors in Fars province in 1390
Dr. Zomorodian	Investigation of antifungal effect of essence prepared from <i>Salvia mirzayanii</i> collected from Fars province against <i>Candida</i> species by flowcytometric method and antibiofilm formation effect by XTT colorimetric method in comparison with fluconazole	Dr. Shahriari	In vivo effect of <i>Echinacea purpurea</i> on <i>Leishmania major</i>
Dr. Shahriari	In vivo efficacy of a few of Azol derivatives on <i>Leishmania major</i>	Dr. Hatam	A Study on isoenzyme, antioxidant and ultrastructural alterations of <i>Leishmania tropica</i> in different growth stages
Dr. Shahriari	Seroepidemiological and molecular evaluation of toxoplasmosis rate in patients under chemotherapy in Bushehr township in 1393	Dr. Shahriari	Serological study of human toxocariasis in eosinophilic patients referred to Shiraz health centers
Dr. Shahriari	Genotype analysis ITS1-2, CO1 and ND1 of <i>Fasciola</i> spp in Talesh (west of Gilan province)	Dr. Sarvari	Investigation of prevalence of Cytomegalovirus infection in stool samples of HIV/AIDS, cancer and

Dr. Zomorodian	Study the chemical composition and antimicrobial activities of Artemisia sieberi essential oil during four different growth stages	Dr. Shahriari	graft recipient patients with chronic diarrhea Epidemiologic survey of visceral leishmaniasis in patients referred to Shiraz hospitals from 2013-2008
Dr. Shahriari	Seroepidemiological study of Hydatid Cyst in blood donors in Fars province in 2012-13	Dr. Sarvari	Comparative investigation of BK and JC virus prevalence in adenocarcinoma/ adenomatous tissue samples in colorectal cancer patients with healthy individuals admitted to the Shahid Faghihi Hospital during 2012-2013
Dr. Motamedifar	Study of outer membrane protein pattern and serotypes of isolates E. coli from faghihi hospital, Shiraz, Iran.	Dr. Zomorodian	Determination the adherences of Candida albicans and Streptococcus mutans to common acrylic teeth
Dr. Zomorodian	Biosynthesis and analysis of silver nanoparticles	Dr. Zomorodian	Study the antimicrobial activities of ten one novel synthetic molecules (Tetrazole derivatives) in comparison to common antibiotics by broth microdilution method.
Dr. Zomorodian	Study the chemical composition and antifungal activities of Salvia mirzayani essential oil	Dr. Shahriari	Using of Immunoblotting, and ELISA in diagnosis of Cutaneous Leishmaniasis
Dr. motazedian	A survey on the effect of lotus and henna metanol extracts on promastigotes of Leishmania major parasites in in vitro	Dr. Zomorodian	Extraction of fungal genomic DNA by the laundry detergent and evaluation the quality of the purified DNA
Dr. Hatam	The role of Monsoon phenomenon in prevalence of Malaria in South East of Iran (Chahbahar Distric)	Dr. Hashemizadeh	Determinants of Antimicrobial Resistance, Virulence Factors Genes and Phylogenetic groups in Escherichia coli Strains Isolated from Faeces and Urine of Women with Recurrent Urinary Tract Infections
Dr. Motamedifar	evaluation of the effect of aerobe anaerobe microorganism colonization of the uterus environment, cervix and vagina on outcome of in vitro fertilization - embryo transfer treatment	Dr. sadjjadi	Study on zoonotic filarial infections in dogs at Shiraz, 2019
Dr. Shahriari	Prevalence of intestinal parasites in mentally retarded children residing in rehabilitation centers in Shiraz Township in 1398	Dr. zomorodian	Investigation Antibacterial activity properties, permeability and mechanical of the composite with waste egg shell nanoparticles
Dr. Hashemizadeh	Survey distribution of aminoglycoside modifying enzymes and Molecular Analysis of the Coagulase Gene in Clinical Isolates of in Staphylococcus aureus strains isolated from Hospitals shiraz(Nemazee and Faghihi) during 1397-98.	Dr. Hatam	Synthesis and evaluation of some new formulations of miltefosine and artemisinin Leishmania major and Leishmania infantum based on nanotechnology and their evaluation In-vitro and in BALB/c mice model
Dr. Hatam	Prevalence and genotyping survey of microsporidia sp.in immunodeficiency patients which Admitted in shiraz namazi hospital in 2017.	Dr. Motazedian	Genotyping of Echinococcus granulosus from human isolated hydatid cysts in Semnan province
Dr. Motazedian	Giardia genotyping sensitive and resistant to treatment with metronidazole and tinidazole in human specimens	Dr. Shahriari	Seroprevalence of hepatitis B in children in Sarmashhad area in Kazeroon township
Dr. Zomorodian	Antifungal susceptibility testing, genotyping, mechanism of resistance, and clinical profile of infections caused by Candida underrated yeasts, Candida orthopsilosis and Candida metapsilosis	Dr. Zomorodian	Study the antifungal & antimicrobial activities of some novel derivatives of quinazoline, chromene, thiazole and thiadiazole
Dr. Mikaeili	The seroprevalence of toxocariasis in Nomads of Boyerahmad Township, 1394	Dr. Shahriari	Evaluation of Blastocystis hominis genotypes in rodents (in Kohgiluyeh and Boyerahmad Province) and wild boars (in Bushehr Province)
Dr. Motazedian	In vivo survey of hena and tymus hydroalcoholic extract on leision of mice has been caused by Leishmania major	Dr. Hatam	Evalioting the Effect of new Medicine- ( benzenediol and naftazolin) on cutaneous and visersl leshmaniasis
Dr. Sadjjadi	Comparative morphological adult Echinococcus granulosus isolated from the final host and grown in culture using a microscope Nomarsky	Dr. Sarvari	Investigation the seroprevalance of Parvovirus B19 in female students of Shiraz University of Medical Sciences in 2017
Dr. shahriari	Serological and molecular prevalence of toxoplasmosis in Fars province in 2015	Dr. Hatam	The study on prevalence of toxoplasmic lymphadenitis in patients undergoing surgery from 2011-2015 in shiraz
Dr. Khodadadi	Evaluation of antifungal activity of new derivatives of Oxiconazole using microdilution method	Dr. shahriari	Evaluation of the levels of sex hormones (testosterone, estrogen and progesterone) in males and females patients with cutaneous leishmaniasis and malaria
Dr. Derakhshani	attitude, acknowledge and practice prevention of cutaneous leishmaniasis in the households in the sought of the city Shiraz	Dr. shahriari	Evaluation of affinity transfer blotting in diagnosis of human hydatid cyst
Dr. Zomorodian	Modified magnetic nano particles by PEG-400 to immobilization of Ag as antibacterial agent	Dr. Khashei	The frequency of hopQI and hopQ II among clinical isolates of Helicobacter pylori in patients with gastrointestinal diseases in Shiraz, 2014-15
Dr. Shahriair	Genotyping of Balantidium isolated from Wild Boars in Bushehr Province		Investigation of polymorphisms of PD-1 gene at +7146 G/A and +7785 C/T loci in chronic hepatitis C patients in comparison with healthy control
